

CL-EV-R ANALYSIS TEMPLATE

1. CLAIM

Criteria	Feedback
1a. Claim responds to the question.	
1b. Claim is complete.	
1c. Claim stands alone (without the probe).	
1d. Claim is written in a complete sentence.	

2. Evidence

Criteria	Feedback
2a. Evidence is appropriate for the claim.	
2b. Evidence is clear.	
2c. Evidence is sufficient for the claim (there is enough evidence).	
2d. Evidence is scientific (data from investigations or valid sources)	
2e. Evidence is described in a complete sentence, not merely listed.	

3. Reasoning

Criteria	Feedback
3a. Provides a rule or reasoning that links the evidence to the claim without merely repeating the claim and evidence.	
3b. Reasoning explains how or why the evidence supports the claim.	
3c. Reasoning is clearly stated (can be identified by the reader without inferring meaning).	
3d. Reasoning includes a scientific concept or principle that links the claim and evidence.	
3e. Reasoning is written in a complete sentence.
